Doyle Asks Delay in Freeway Routing

Assemblyman Donald Doyle will seek a 30-day postponement of next month's ruling by the State Highway Commission on the proposed routing of the Shepherd Canyon Freeway through Reliez Valley.

This was the result of a unanimously approved motion from the floor at Wednesday night's Acalanes High School meeting for purposes of discussing problems raised by the proposed freeway routing as they affect Lafayette and vicinity.

The motion for a delay of the commission's ruling was made by Stan Walgren, the high school's principal.

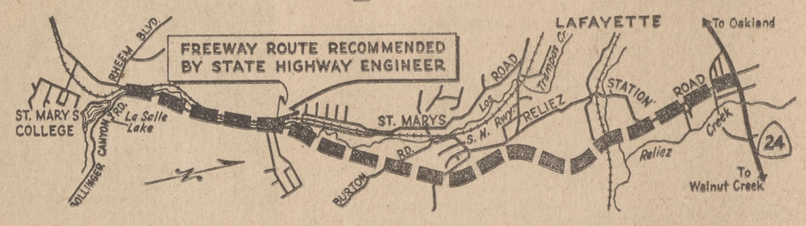
Over 200 attended the meeting, including representatives of the Acalanes Improvement Association, Glenside Improvement Association, Acalanes Valley Improvement Association, St. Mary's Estates Improvement Association, St. Mary's Orchards Improvement Association, Peardale Estates Home Owners Association, Springhill Road Improvement Association and Lafayette Improvement Association.

A. E. Simmons, planning engineer for the State Division of Highways, District IV. exhibited two large maps of the proposed routing, and explained present plans.

Herbert Shepard, president of the Peardale Estates Home Owners Association, presented Sumner McAllister of Lafayette, who has served on a number of planning boards. He outlined the long-range planning of the freeway from the beginning.

Campbell MacPhail of the Lafayette Improvement Association introduced R. B. McConaughy, delegate to the Diablo Highway Federation, who said the federation had heretofore thought the route least objectionable of three alternatives.

If his request for a ruling postponement is granted, Donald Doyle indicated he would be glad to represent the various improvement associations at the commission's September meeting.



THIS IS A SECTION of proposed Shepherd Canyon Freeway routing recommended by the state highway engineer which will be considered for adoption by the California Highway Commission at its August meeting. It extends from Bollinger Canyon Road just north of St. Mary's College to Mt. Diablo Boulevard at Pleasant Hill Road.

PUP IN A SHOPPING BAG? Yes, that's what was found on the gate at Pets and Pals, 3338 Mt. Diablo Boulevard, Lafayette, by Mrs. Rick Slagle, manager. The unnamed cocker now is in good care — but, like many other pets at the shelter, is waiting for someone to adopt him. —Sun Photo by Mattson

Pup Found in Shopping Bag at Shelter

A gold-and-white cocker puppy, as yet without a name, is feeling pretty frisky these days at Pets and Pals, animal shelter at 3338 Mt. Diablo Boulevard, Lafayette.

But the pup wasn't so comfortable several days ago when Mrs. Rick Slagle, manager at the shelter, found him in a shopping bag attached to the gate.

Whimpering, cold and shivering, the tiny dog was brought into the shelter and was made as comfortable as possible.

WARM MILK and baby-food was fed to the pup, and this diet apparently agreed with him, for his whimpering soon subsided, then changed to happy barks.

The appealing puppy is one of many pets at the shelter waiting to be adopted, according to Mrs. Douglas A. Sargent, president-founder of Pets and Pals.

The Pets and Pals shelter at 2018 Park Boulevard, Oakland, has been well-known for some time. The new shelter in Lafayette was established recently.

MRS. SARGENT points out that pets awaiting adoption include, in addition to the gold - and - white cocker, the following:

Satchel, a purebred boxer; Minty, an English springer; Prince, a collie-shepherd; Timmey, a skipperkee, and a varied assortment of kittens and cats.

"And there are many more," Mrs. Sargent adds.

THE SHELTER president continues:

"When you get a dog or any pet from Pets and Pals, you sign adoption papers not to sell or give the pet away, but to return it to Pets and Pals at any time you do not want it."

A new eight-week dog-training course will start at Pets and Pals at 5:45 p.m. today. To register for the course, phone the shelter, AT 4-4411, or come to the shelter.

Polio Vaccine Scheduled for Next Week For County's First, Second Graders

"Contra Costa children who were in the first or second grade this spring may receive polio vaccine according to the following schedule," Dr. Beryl S. Graham, Assistant Health Officer, said today.

Those who received one injection in the schools will be given a second injection in the appropriate community clinic. Eligible children who missed the first injection may also have it at these clinics.

CHILDREN MUST BE accompanied by a parent or responsible adult. Vaccine will be given only to those who have records on file showing that they attended first or second grade in the spring.

A request form signed by the parent will also be required. If a request was not sent in through the schools, one may be signed at the time of the clinic.

The records for each school will be sent to the clinic designated for that school in the following schedule.

IT WILL BE necessary for parents to note the time and location of the clinic assigned to the school which their child was attending at the time the first injections were given, as the records will not be available at any other clinic.

Ambulance Service Is Resumed Here

After 28 days of critical lack, emergency ambulance service in south-central Contra Costa County was resumed yesterday by William B. Pomeroy of the Walnut Creek Ambulance Service, The Sun learned exclusively today.

Pomeroy stated, "the condition has become to serious to be allowed to continue any longer. Though it will mean a loss of money to me, I will continue emergency ambulance service until the county comes to some decision on subsidizing or providing permanent service for the area"

Pomeroy suspended emergency service in Walnut Creek, Orinda, Lafayette, Moraga, Danville, Alamo, San Ramon and Diablo areas, July 1 after failing to obtain subsidy payments from the county and fire districts.

AS THE RESULT of a meeting Wednesday in the Walnut Creek City Hall, County Administrator Desmond M. Teeter is to investigate the possibility of fire district operation of ambulance service in Walnut Creek and its vicinity.

The meeting was also attended by Mel Nielsen of Lafayette, Mayor Edward C. Counter of Walnut Creek, Supervisor Ray Taylor of District 3, Gil Earle of Orinda, Walnut Creek City Attorney John Nejedly, and J. T. Schroeder of the Central Fire District.

Due to the lack of ambulance service which had been endangering lives, Teeter promised those attending the session to inquire of the district attorney on the method of setting up such service based on competitive bidding.

Teeter said that he had considered the question of ambulance service at length and he rejected any suggestion that the county sponsor it. He said that an increase in ambulance rates had been considered as a partial solution.

Teeter acknowledged the county's responsibility to "protect and transport the sick," but he declared that the county was prohibited from entering "into the ambulance business."

"IF WE PAY one ambulance operator a subsidy, it would be only fair to pay all of them," Teeter said. "To help out, the county has even paid ambulance bills in some emergency cases and then tried to collect, but this proved futile."

Teeter promised to write letters to six operators of ambulances asking their opinion of competitive bids and for other suggestions. This does not include those who do this as a sideline, such as morticians.

The seven men who met Wednesday agreed to meet again next Friday, 3 p.m. at the City Hall.

THE LAFAYETTE-ORINDA Junior Chamber of Commerce with President George Yorg met Monday night at the El Nido with Pomeroy to try to effect a temporary arrangement between the county and Pomeroy.

According to Yorg, the committee will try to obtain the other side of the story from the Lafayette fire district and the County Board of Supervisors.

It was felt that the Orinda and Central Fire Districts didn't agree to subsidize Pomeroy because Lafayette and Danville wouldn't.

IN AN EVENT OF total lack of negotiations, or if the county refused to subsidize Pomeroy for his functions, the Junior Chamber of Commerce had intended to "go ahead with plans to form a nonprofit corporation to provide service," according to Yorg. "This would be a last resort."

The committee appointed by Yorg consists of Dr. Jack Hansen, chairman; Dick Emory; Gordon Lindberg, Hans Beetz, Don Hall and John Kennedy.

AT THE MEETING Pomeroy offered the Lafayette-Orinda Junior Chamber one of his ambulances but Yorg said that the members weren't equipped to handle it.

Planners Will Decide Cemetery Permits, Aug. 23

Decisions on the applications for two cemeteries in the Reliez Valley area, north of Lafayette, will be announced by the county planning commission on August 23.

The commission heard opponents and proponents of the two cemeteries in a public hearing Tuesday night in Martinez. The cemeteries were applying for land use permits under a county ordinance that has been in effect since May 6.

The first application to be heard before the commission was that of Oakmont Memorial Park, owned by Bilanco, Inc. It would cover 218 acres belonging to O. W. and Dorothy Van Cleave.

THE OTHER was Queen of Heaven Cemetery, sought by the Catholic Archdiocese of San Francisco to cover approximately 980 acres on the former J. J. Haviside ranch just south of Grayson Road and west of Reliez Valley Road.

In his opening remarks, Attorney Philip H. Angell Jr. representing the Bilanco cemetery, said: "The residents of our part of the county are always demanding peace and quiet — we think we have a partial answer."

He said the cemetery would have no headstones, but would employ plaques indented into the ground. According to Angell, the Van Cleave residence on the property would be the only building on the property. The house would be remodeled to suit its different purpose.

Several artificial lakes would be installed, and columbariums would be bulldozed into the hillside.

VERY FEW residents of the surrounding area would be able to see the top of the land where the graves would be, Angell maintained, and then they would see only lawn. The property is elevated considerably, forming an "earth island."

He said there were relatively few houses in the surrounding area with the land zoned agricultural at present.

Water is available to the site from both the East Bay Municipal Utilities District line and the Contra Costa Canal.

Angell termed the cemetery "endowment-care," whose sums would exceed the minmum sums of the cemetery ordinance.

He said the burial area was a good 1000 feet from the nearest residential area.

Joseph S. Wright, 1821 Reliez Valley Road, asked the commission for a definite setback line where the cemetery would border residential property.

AYLWIN PROBERT, whose property would have a common borderline with the cemetery of several thousand feet, spoke in favor of the Bilanco application.

J. Richard Townsend, whose land adjoins both proposed cemeteries, said: "I am opposed to the application of any cemetery in the area, including the Catholic one. The normal development of this area is for residential purposes. A cemetery spoils the use of the land."

Charles Hahn, speaking for the Reliez Valley Improvement Association, said he opposed cemeteries in residential areas, and wanted a 1500 foot buffer zone.

ED MECCHI maintained the burial area could be seen from anywhere except right at the foot of the hill.

Mrs. Mildred Farrar of the Contra Costa County Women's Planning Council asked about traffic that would be generated by the cemetery location. She said: "Evidently Reliez Valley, in the absence of master planning is going to become like Colma, an obviously

Planning Groups Protest Proposed 'Office' Ordinance

By WALT JOHNSON

At the second hearing of the proposed county-wide ordinance to set up professional and administrative office districts, the planning commission heard representatives of various planning groups Tuesday night criticize the present draft of the ordinance.

It would facilitate the construction of the Pacific Intermountain Express Company's $750,000 office building at Orinda's Pine Grove.

Thomas Heaton, county planning director, said the hearing was being held to "get new ideas, and then take the matter under advisement."

THE COMMISSION will order a proposed ordinance drafted, and brought back to them in the form of findings to be recommended to the County Board of Supervisors.

Mrs. Claire Ward of the Women's Planning Council told the commission the intent of the ordinance "should be considerably tightened."

She said that its present form posed "a direct invitation to types of businesses permitted to seek land adjoining residential property, because it's cheaper."

Mrs. Ward displayed two maps of Menlo Park's office development to show that "multiple dwellings are standard practice to form a buffer zone" between commercial and first-class residential zones.

"ANY COMMERCIAL zone should be between communities, and not adjoining residential land," she continued. "The council also wants a restriction placed in the ordinance to protect schools."

At this point, Commissioner Arthur Young asked Mrs. Ward: "Shouldn't a discussion of any adjoining property come out at the zoning hearing rather than at this ordinance hearing? We have to see if a particular zone fits under the provisions of the ordinance."

Mrs. Ward replied that the more specific the ordinance is, the less trouble will occur later.

Edward Clay of the Emergency Committee for Master Planning said: "It is not al all clear to us how such a zone will benefit the county."

"It represents a severe restriction on the use of land, but if you gentlemen think it will benefit the county, then proceed with it," he continued.

CLAY ALSO questioned the existence of any substantial trend of business moving from city to suburbs.

Harold Wise, Menlo Park planning consultant hired by PIE, addressed the meeting.

He said: "A dignified group of businesses have come to Menlo Park. The multi-dwelling area is not of the ordinary kind; it has a high ratio of space to family, compared to other ordinances. It is good for community living to be able to get to work fast."

MRS. MILDRED FARRAR of the Contra Costa County Women's Planning Council thought the intent of the ordinance should be considerably tightened, and any office zone carefully placed.

She told the commission: "It is obvious you are designing this ordinance to permit offices in residential areas." She believed that migration to the suburbs would soon build up a new city around the office zone.

Mrs. Farrar said her planning council wanted "plenty of area for a buffer zone."

"Mr. Wise says it will bring taxes, but types of industry with many workers in relation to their capital can saddle a community tax-wise, especially for school taxes."

"I DON'T believe any of you are enthusiastic about architectural or landscaping controls," said Mrs. Farrar, surveying the commission. "Nice businesses in Menlo Park would be followed by others and make the area look like Emeryville or West Berkeley."

Mrs. Farrar said Menlo Park has experienced no drop in taxes with the influx of business because

Youth Center Is Recreation Need, Committee States

A "serious need in Orinda for some sort of youth center for high school youngsters" was stressed by Don DeWitt at the Orinda Association board meeting Monday night.

Reporting for an association committee which is investigating possibility of a local recreation district, DeWitt told directors in the Orinda School library that the committee believes a youth center is the primary recreation need here.

"We really do need a center of some kind open every night," he said. "It could be staffed by the kids themselves, with some senior help.

"IT SHOULD include some type of soda-fountain facility, a dance floor, a lounge and also a section pretty much for boys alone, where bowling and billiards could be played.

"We're hoping such a building could be located on the upper level of the Community Center land, with adequate parking space. The building could serve as a meeting room for various organizations, on a fee basis, until other buildings were erected at the Community Center."

Chairman of the committee is Leighton MacGregor. DeWitt said that the group feels the second most important need to be a library building.

"THIRD ITEM in priority would seem to be to help the new Miramonte High School in Orinda to get a swimming pool going," DeWitt added.

DeWitt pointed out that in order to be on the 1956-57 tax rolls, a district would have to be formed by next February 1.

Directors expressed the view that the current zoning controversy in Orinda makes the present time inauspicious for a recreation district campaign with such a time-table and that it might be better to set sights for a year later.

The preferred type of district, DeWitt said, would be a park, recreation and parkway district.

OTHER ACTIONS at the board meeting included:

1. A talk on the objectives of the Lafayette-Orinda Junior Chamber of Commerce by that organization's president, George Yorg.
2. Approval of planned landscaping on the west side of Irwin Way by the Orinda Community Church.
3. **DECISION** to inform the Orin-

'Summer? Hah!' Snorts the Bird

The somewhat cooler weather that prevailed in Orinda during the week up to yesterday morning pleased some people, but the local weather bird was quite grumpy.

"If this keeps up, one will have to look at the calendar in order to know that we're in midsummer," he complained.

Convinced that nothing he said would have the slightest effect on the weather, the bird reported the following high and low temperatures:

July 22	82	49
July 23	77	49

County Protests Assessment Plan; Tax Rate Up 2c

On Wednesday, following one of its numerous budget sessions, the Board of Supervisors authorized County Auditor-Controller Howard E. McNamer to make a statement on the 1955-56 county tax rate — and McNamer disclosed that the county tax rate will be increased 2 cents, to $2.609, for the fiscal year which started July 1.

The increase will not apply to Richmond, where, because that city has its own library system, the rate will continue at $2.509.

THE NEW TAX RATE will finance a budget of $24,714,582, up $2,781,443 from the 1954-55 budget of $21,933,139.

If the 45 per cent boost in property assessments goes through, as ordered by the State Board of Equalization, the tax rate will be reduced 85 cents — but property owners will receive a large tax bill, McNamer stated.

Armed with a unanimous resolution of protest by the Board of Supervisors, Assessor C. L. Dunklee is prepared to object strongly Monday to the State Board of Equalization's order that Contra Costa County property assessments be increased 45 per cent.

The supervisors' resolution was passed Tuesday.

In their resolution of protest, the supervisors asked the Board of Equalization to postpone its order for one year.

COUNTY ADMINISTRATOR D. M. Teeter told the supervisors that the 45 per cent assessment increase would have the effect of transferring $665,943 in tax bills from public utilities to so-called common property owners.

Public utility property, assessed by the state board, would not be included in the evaluation boost.

Dunklee has declared that "the utilities would get a free ride at the expense of the rest of the taxpayers" under the assessment-increase order.

Assessment increase have been ordered for 18 other counties besides Contra Costa.

COUNTY SCHOOLS would be sharply affected by the 45 per cent increase in Contra Costa, Harold De Fraga, assistant county superintendent of business administration for the County Schools Department, stated.

De Fraga said that some of the county's 34 school districts would promptly have a drop in the school district tax rate and that bond elections would have to be held in those districts which must maintain their bonding capacity at maximum so as to qualify for state building aid.

Other effects on the schools would not be felt until July 1, 1956, according to De Fraga, because state funds are allocated currently to school districts on the basis of the previous school year.

LAFAYETTE, Orinda and Walnut Creek School Districts were listed by De Fraga as among those which would have to increase their repayment of state building fund loans.

Lafayette, Orinda, Walnut Creek, Canyon and Danville elementary school district. Acalanes High School District and Mt. Diablo Unified District were listed by him as among those in danger of receiving less state apportionment on an equalization basis.

McNAMER REPORTED that $800,000 had been chopped off the budget requests of various county projects. This reduction includes $329,000 from the highway program and $250,000 sought for remodeling the courthouse.

Included in the 1955-56 budget, McNamer pointed out, is $10,000 for a reassessment program.

Board of Supervisors hearings on the budget will begin August 10.

AUGUST 19 has been scheduled as the date for the final hearing on and adoption of the budget. By law, the budget must be adopted

County, City, Fire Districts Study Various Proposals

Petition or Ballot in Orinda Battle? Decision Will Be for 'Effective' Way

Whether the "keep Orinda residential" campaign of the Orinda Association's Home-Owners Committee will take the form of a petition drive or balloting will depend on which method will be considered "more effective," Association Vice-President Frederic A. Sawyer said Monday night.

Sawyer's statement was made during discussion by the association board of the controversial issue, which has as one of its highlights Pacific Intermountain Express Company's application for rezoning of the firm's 10½-acre Pine Grove parcel to enable PIE to erect a $750,000 office headquarters building there.

Odie Monahan reported that the recently formed Home-Owners Committee of the Orinda Association is a volunteer organization "of about 400 people."

THE GROUP'S objective, he said, is to "keep Orinda residential," he added.

"This we intend to do to the best of our ability."

Director John Ogden asked if the Home-Owners Committee includes the members of the Committee for Residential Orinda.

Sawyer stated that the latter committee "is no longer functioning." He stressed that the Home-Owners Committee has no connection with it and is an official committe of the Orinda Association, growing out of the June 27 association board meeting.

Mrs. Stuart Henderson asked what the "next step" will be.

"THAT HASN'T been decided," Sawyer said.

Ogden said he did not believe a petition drive to be the proper method of asking the community to get the tentative Orinda master plan amended so as to bar outside businesses which do not serve the immediate needs of the local people.

He stated the matter should be put to the people in the form of a ballot, with opportunity given for "Yes" or "No" votes.

Director Clint Hallsted said: "I do recall that this association went on record that it would give the people of Orinda an opportunity to vote on the matter. We subsequently overruled that. A number of people, like myself, feel somewhat upset by the fact that we're substituting something else."

SAWYER REMARKED: "If a ballot is more effective, a ballot will be held. If a petition is more effective, a petition drive will be conducted. At the present time we don't know which method will be more effective."

Ogden expressed the view that a petition drive would "not be democratic."

Chairman James Hupp of the association's Planning Committee observed:

"We must bear in mind that this is an unincorporated area. It seems to me that there is not too much difference between a petition and a ballot."

He added that, since Orinda is unincorporated, ballots in voting such as could be contemplated would have to be signed, "the same as petitions."

Fiesta Fund-Use Suggestions Offered; Orindans Asked to Make Wishes Known

The Board of Directors of the Orinda Feista met July 19 at the home of William Fleager, president, for a two-fold purpose: first, with all bills and receipts finally in, for a final accounting and summation of Fiesta affairs; sceond, to discuss the dispostion of the approximate $6000 profit.

Minutes of the previous meeting were read and approved and the final report from the steering committee chairman, Joe Creighton, was read. The financial report from the steering committee treasurer, Clarence Betz, was also read.

A discussion was then held by the board members of the wishes of the community as to the expenditure of the profits.

THE BOARD strongly felt that the money should be used for a project that could be completed at this time, at least to the extent of immediate enjoyment and use by the community.

The board members pointed out they realize that the community is desirous of seeing a tangible result from the fruits of its widespread efforts for the Fiesta.

The following suggestions were carefully considered, and the board now asks for the reaction of Orinda citizens to these possibilities:

1. **BEAUTIFICATION** of the Interchange. The state has plans for basic planting, and the Fiesta funds might be used for a more complete and attractive landscaping of the area.

The state could then be approached regarding watering and maintenance, and interested local organizations, such as the Orinda Garden Club and the Chamber of Commerce, might wish to assist and contribute also.

The approximate $6000 profit it was thought, would satisfactorily complete this project.

2. **ORINDA IDENTIFICATION** markers.

Many have felt the need for dignified and attractive signs at both east and west entrances to Orinda. These would be placed on private lands, would be constructed of appropriate building materials and would be well-lighted and landscaped.

The Fiesta funds would be ample for this project.

3. **ALL-PURPOSE** amphitheater.

Located on Community Center proprety behind the school playyard is a naturally formed amphitheater that could be developed into a stage and terraced audience area, with refinements such as dressing-rooms and storage space for stage props, to be added later.

Organizations such as the Mothers Club and the Dramateurs might find the additions worthwhile projects. The approximate $6000 profit would complete this in an initial usable stage.

4. **SCOUT HUT.** More ample facilities are needed by the large number of boys and girls active in scout activities n Orinda.

With some donated labor and materials at cost, an adequate structure could probably be built.

The Fiesta proceeds would afford a sufficiently completed building for use.

5. **YOUNG PEOPLES'** activities building. A need for a teen-age center is often discussed — a place for young people to meet, eat, dance and play all year 'round.

With similar help and donations as planned for a scout hut, it would be possible to have a simple, usable structure.

An example was given of a similar community which laid a large concrete slab foundation and upon it gave a series of dances and entertainments to raise money for further construction. The Fiesta funds could construct a very usable beginning.

"THIS PROFIT belongs to **all Orinda residents;** therefore they are urged to send a postcard or letter to the Fiesta Board of Directors, P.O. Box 565, not later than August 15, expressing their personal wishes as to the expenditure of the money," the board states.

The board adds that, on behalf of the steering committee, it wishes again to thank Orinda for its generous efforts toward this successful Fiesta.

Office Zoning Hearing Held

(Continued from Page 1)

among other things. governmental costs have increased.

She continued: "$110 a month is more than an office worker can afford for a garden apartment like Mr. Wise suggests."

GLADYS SCHWATKA, representing the Orinda Association, said she would be "frank" with the commission, and that Francis Violich, the association's planning consultant, had termed the ordinance a "very fine one."

"However," she added, "we wonder if such a restrictive use of land can be of benefit to the county."

She passed out to the commissioners a statement of intent of the ordinance, worked out by her and Violich.

Mrs. Schwatka also commented that "'general plan' could mean enything," referring to the ordinance stating that such administrative and professional districts would be worked out in accordance with a general plan.

Edward Clay spoke again, declaring that the planning commission could alienate the community by lowering land values.

JAMES HUPP of Orinda told the commission he thought signs should be prohibited on roofs since this position would not be in keeping with residential architecture.

He suggested the commission get some information on the "real desire for such a district."

The whole matter was taken under advisement by the commission, and the hearing closed.

Funds Requested In 'Residential' Fight in Orinda

Nearly 3000 Orinda homes received a letter this week from William Penn Mott Jr., general chairman of the Orinda Home-Owners Committee, appealing for funds to aid in the effort to "keep Orinda residential."

Mailed Monday, the letter stated: "Recently we have all been trying to answer a community-wide question of vital importance—and that is whether we shall have a commercial or residential community?

"Only half the story has been told—that of the commercial side, and we now face a decision which, when made, will definitely influence the kind of a future community we will have . . .

"Won't you join those of us who are contributing to a fund, needed to tell the full story—to clear up all the confusion and misconceptions—to clarify the basic issue—COMMERCIAL VS. RESIDENTIAL."

da Fire Board that Community Center land is not for sale but that the association is willing to discuss a possible long-term lease arrangement.

In this connection, the directors voted to return to the fire district a $100 check offered as deposit for Community Center land as a possible new site for the main fire station.

Chairman James Hupp of the association's Planning Committee was asked to investigate possible extension of Avenida De Orinda to the projected San Pablo Dam Road by-pass. The main fire house is on Avenida De Orinda.

VICE-PRESIDENT Frederic A. Sawyer pointed out that if Avenida De Orinda is extended to the by-pass, the present location of the fire station may be satisfactory for the fire department.

4. Report by Sawyer that the Orinda Fire Board has been investigating the possibility that the 1955 Building Code may provide the fire district with sufficient fire protection safeguards in the mercantile area.

Because of this, a scheduled July 19 County Board of Supervisors hearing on a Fire Zone 1 for the Orinda business sections was indefinitely postponed, at the request of the fire district.

5. REPORT BY Clint Hallsted that Frank Cayting, chairman of the incorporation study committee, has a report which he wants to present to the board.

Hallsted said that Cayting has had this report "for four or five months, and he wants to get on the agenda."

Sawyer conducted the meeting, in the absence of President Robert Boyle, who was on vacation.

Orinda Can Be Kept Residential If People Want That, Declares Violich

Orinda can continue to be the uniquely "clean" residential community it is now or it can be rezoned into an interspersed commercial area like Millbrae or Lafayette, Francis Violich, associate professor of city and regional planning at the University of California, said yesterday.

"It is up to the people of Orinda to decide now whether they want to keep their area one of the most outstanding in the United States," the consultant to the Orinda Association's Planning Committee declared.

"If you let Pacific Intermountain Express in the Pine Grove, you open Orinda to a whole stream of such uses and in 10 years you will have an entirely different pattern. The people of Orinda have a right to set the pattern for their community. They do not have to submit to the ruination of their uniquely fortunate area if they will only act now."

WHEN ORINDA has "such limited land," it would be "a shame to spot rezone and open the floodgates of commercialism," Violich said.

"It just so happens that the part of that limited land that PIE has chosen is most appropriate for community facilities," he observed.

"It doesn't matter whether these facilities are public, private or semi-private; the point is they would serve the community best if located in the Pine Grove with its central location and immediate proximity to related uses such as schools and churches."

"ORINDANS have expressed themselves on the type of business they want," Violich continued, "and that is business that will serve Orinda, such as shopping and service facilities, lawyers, architects, doctors and the like — all which are concerned with Orinda. What does a major trucking firm have to do with Orinda business?"

PIE's plan to take the Pine Grove and locate Orinda's desired community center services elsewhere "is in the first place impossible engineering-wise and in the second place would make a private commercial corporation the most important in the area," Violich said.

"If you keep Orinda residential, as the community grows to its normal expected capacity of around 25,000 residents, a comunity services district can be formed," Violich stated.

ORINDA WILL NOT have to pay for all the Pine Grove land, he added, pointing out that the new seventh and eighth grade school now under construction there has a very limited outdoor area.

Possibly the school district will need some of the land, the community could take some, or any real community need, such as churches, lodge buildings, a hospital or doctors, could desirably use this land, Violich said.

"It just seems to me there is an opportunity to do a really fine thing that would be unique in suburban communities here," Violich went on. "It would be a shame to let this opportunity go by."

VIOLICH IS LEAVING this week for Caracas, Venezuela, where he has been asked to give direction for the development of the last remaining hacienda (agricultural land) in Caracas.

Violich authored the first United States type zoning ordinance in Latin America, for the city of Caracas, which has become the model for zoning ordinances for all Venezuelan cities.

All It Took Was One Small Match

One of the laborers working for Oliver and Coburn who are doing construction work behind the Orinda Store, 75 Orinda Highway, thought he would burn some scrap wood Wednesday.

He filled the incinerator behind the store and then doused its contents with gasoline.

He made one mistake—he waited too long before applying a match.

When the flame contacted the fumes inside, a sudden explosion scattered 3000 bricks around a 25-foot radius. The man was unhurt though thrown back about 15 feet.

Don Bradley, who works in E. J. Phair's Orinda Store, estimated the damage at $700 to $800.

Strader Talks To Lions Club

Coach Red Strader of the San Francisco 49ers told a meeting of the Orinda Lions Wednesday night at the Willows that the team would probably use its "wonderful St. Mary's accommodations" again next year for pre-season training.

Strader invited interested spectators to attend the professional football club's morning practice session at 10, or the afternoon workout at 3.

He was introduced to the audience by Paul Vashell, program chairman. The two were classmates when St. Mary's was known as "the old brick pile."

Dr. Lloyd Farrar was appointed annual barbecue chairman, and promptly announced a September 17 date at the home of James Hull in Hidden Valley.

Parking Ban OK'd For El Toyonal

Effective August 19 will be an ordinance banning parking at any time on the northerly side of El Toyonal from a point 798 feet westerly of the center line of Loma Vista Drive, for a distance of 100 feet westerly.

The ordinance, No. 961 was unanimously adopted by the County Board of Supervisors July 19.

George Harrison Smashes Records, Arrives in Japan

By JULIUS ROSENTHAL

Sixteen-year-old George Harrison of Orinda arrived in Japan Wednesday morning for a month-long series of swimming meets, after establishing records in competition in Southern California.

As a member of the Berkeley City Club team, the son of Mr. and Mrs. Robert D. Harrison of 7 Camino Lenada participated in the Men's National Swimming Meet of the Amateur Athletic Union at Los Angeles July 20, 21 and 22 and in the El Segundo Meet last weekend.

AT THE AAU meet in Los Angeles George broke the American record for the 400-meter individual medley by performing the event in 5:23.3, chopping off 5.7 seconds from the previous record of 5:29.

He nabbed second place in the 200-meter butterfly and a sixth in the 200-meter backstroke.

At El Segundo George swam in five events — and won first place in each, receiving the high-point trophy.

He broke the record for the 400-yard individual medley. The other four events which he won were the 100-yard freestyle, 100-yard butterfly, 100-yard breaststroke and 200-yard backstroke.

AS THE RESULT of his Men's National Swimming Meet accomplishments, George was chosen to the 15-man United States team to compete in Japan. The U.S. team is guided by Coach Robert Kiphuth of Yale's swim team.

Selection of the American team was in response to the invitation of the Japanese Swimming Federation, for 15 of the best men swimmers in the United States to come to Japan for a month of competition against various Japanese contingents.

First such competition will be held next Thursday and Friday and on Saturday, August 6, at Tokyo, against an all-star Japanese squad.

THE 15-MAN American team flew from Los Angeles to San Francisco Tuesday, then flew to Japan. On hand to see her son off for Japan was his mother.

"I'm rather tired from all the excitement, but we're certainly proud of George," she said yesterday of the lad who is considered definite Olympic Games material.

George will be a junior at Acalanes High School this next school year. He has been a member of the Acalanes swimming team during his freshman and sophomore years.

At this week's meeting, Cesar Grana spoke on sociological and economic changes that have occurred in some of the South American countries.

Stephanie Case Hits CC County

Portions of the Stephanie Bryan murder case swung into Contra Costa County this week.

On Tuesday, Martinez Constable Ray Willett and Frank Pereira, Briones Valley rancher took an iron bar and a badly deteriorated piece of nylon to Berkeley police for investigation.

THE PAIR found the items off Bear Creek Road where they saw a man of the same general appearance as Burton W. Abbott, suspect in the case, standing near a parked car May 2. The Bryan girl disappeared April 28.

Willett and Pereira searched the area Monday and turned up the nylon and metal bar.

Although doubtful of the value of the find, Willett turned over the items to Berkeley police to determine if the bar could have been the murder weapon, and the nylon a piece of the girl's panties found twisted around her neck.

The nylon was found on a hillside and the bar, under a tree at the edge of a dense thicket.

ON WEDNESDAY, Mrs. Emma Lee Van Meter, 1411 Lavorna Road, Walnut Creek, was called before the Alameda County grand jury as its first witness.

She saw a struggle between a man and a young girl in a car on Tunnel Road between Orinda and the tunnel on April 28, the day Stephanie disappeared.

The car in which she saw the struggle was similar to that owned by Abbott.

Planners to Decide Cemetery Issue

undesirable area."

Angell replied that the cemetery would generate less traffic than any subdivision on the same property.

The second application was presented by Francis Hoey, Martinez attorney, and Msgr. Stephen Cummings of San Francisco, the archdiocesen director of cemeteries.

He said that there were now approximately 33,000 Roman Catholics in the central part of the county, and burial of these people presented the archdiocese with a serious problem.

The application was opposed by the Women's Planning Council, Hahn, Mecchi and Townsend.

Dramateurs Please With a Brilliant 'Four-Poster'

By THE REVIEWER

The Dramateurs' presentation of Jan de Hartog's "The Four-Poster' 'at the Lafayette Town Hall last Friday and Saturday, though only requiring an on-stage cast of two, was proof of the excellent entertainment that can result from the ambitious work of a well-knit amateur theater group.

The effective lighting, authentic costumes, clever makeup and efficient prop work all made for a very polished production.

AND NOTHING short of "Huzzahs and Bravo" are due to the two young thespians who guided a rapt audience over a married couples' 25 years of maneuvering in and around their bridal bed.

The interpretations of Michael, the fumbling bridegroom, the expectant father and the wayward and ageing husband were all well in the scope of Merritt Man. His performance was truly an exceptional one.

LOVELY PATRICIA CONNALly brought to the arena a delightfully wise Agnes. In the delicious scene of the childish bride on her wedding night, Miss Connally allowed us glimpses of the mature woman to follow.

But as she gracefully aged, the actress intelligently never lost the sweet, young naivete that first so captivated her audience.

Thongh not part of the original play, mention must be made of Edith Dinkin's efficient and original handling of set changes. Dressed as a maid, and without speaking a word, Mrs. Dinkin grew old brilliantly with the play.

Dorothy Hanford made a gracious hostess.

The play was obviously well directed by Carl Rasmussen, who was assisted by Bethel Culp.

The Dramateurs' production for tonight and tomorrow will be Feren Molnar's "The Guardsan."

Breakfast Meet Of County Demos Will Hear Brown

Attorney General Edmund G. "Pat" Brown will be the guest speaker before a breakfast meeting of the Contra Costa Democratic Central Committee and Democratic Club members at 9 a.m. Saturday, August 6, at El Nido Rancho on Mt. Diablo Boulevard, Lafayette.

Over 30 prominent Contra Costa Democratic attorneys have formed a committee to honor Brown when he appears at the testimonial breakfast.

The breakfast is sponsored by the United Democratic Fund Committee of Contra Costa County. The committee's co-chairmen, Martin E. Rothenberg and John T. Knox, state that over 300 people are expected at the breakfast.

WILLIAM D. McKEE of Lafayette is chairman of arrangements for the committee. Other committee members are:

Clifford Anglim, Walter F. Bebich, Frederick Bold Jr., George D. Carroll, Robert L. Condon, Robert J .Cooney, David A. Dolgin, Louis L. Edmonds, Bob Lynn Edwards, Nathan Engleberg.

Diablo Girls End 1st Session

Sierra Woodlands, the Diablo Valley Girl Scout summer camp in the Gold Lake area of the High Sierras, completed its first two-week session of the year on Wednesday.

The 102 girls divided into five units of about 20 girls each and many of the activities planned within the unit. Each girl fixed her own "nest" with pine needles for a mattress and lashed dressers, washstands and coat racks from native materials.

THE CAMP COUNCIL, made up of representatives of each unit, planned the all-camp affairs, including Colors, Scouts' Own on Sunday and a Lazy Morning after the big affair named Sierra Woodland Day.

The first trout of the season was caught July 20 by the joint efforts of Eugenia Ziegler and Dianne Krog of Pine Unit.

SEQUOIA, the unit of eighth and ninth grade girls, entertained a troop of Boy Scouts from Sacramento at a square dance. Mr. and Mrs. Niosi of Orinda accompanied the boys and their leaders.

Miss Jeanne Christy, the camp director for the fourth season, is executive director for the council.

Board Delays Action on LID 32 Sewer Bids

At the July 21 meeting of the Central Contra Costa Sanitary District's board of directors, all bids on the work in Local Improvement District 32 were turned down, at least temporarily, on the grounds that even the lowest bid was above the estimate made by District Enginer-Manager Gerri Horstkotte.

This LID covers Lost Valley Estates. The matter was being decided at a special board meeting as The Sun was going to press last night.

THE BOARD received a letter from Irving H. Pierce, 20 Culver Court, Orinda, protesting that a proposed sewer line, part of LID 31, could not possibly benefit his property because of the line's location. He wished to file an appeal from assessment.

Director Ernest Spiegl said Pierce was "mistaken as to where the sewer is going to go." The board overruled the appeal.

Irving C. Roemer, board chairman, said the balance of sewering in LID 31 (Moraga Woodlands and Moraga Knolls) would probably be put in next year.

People in that area who are anxious to be served by a sewer could get together and have a system installed, to be taken over later by the distirct, said Horstkotte.

HE ADDED that district specifications would, of course, govern such work.

Additional compensation will probably be awarded to Victor Rodriguez for unexpected costs in LID 31 construction. The added funds would still leave him 20 per cent lower than the next lowest bid originally received by the board for the job.

The sewer relocation bid for work on Mt. Diablo Boulevard near El Nido went to O. A. Fogelberg for $55,333.

The bid for a two-way radio system, to include a main station antenna system, two remote control units, seven mobile units and weatherproof boxes, was awarded to Watson Communications Engineering. The equipment was offered uninstalled for $4000. Installation charges would add $150.

The one bid for the rotovalves in the Orinda pumping station was awarded to Trident Engineering.

Several property owners in Happy Vally Highlands were scheduled to appear before the board last night to suggest alternate routes for a proposed sewer line there.

Your Garden

Numerous Varieties of Shade Trees Can Perform in Many Ways in Garden

By THE GARDENER

INFINITELY VARIED in type, description and function, shade trees can perform in a multitude of ways in your yard and garden.

Deciduous or evergreen, fruit-bearing, blossoming, large or small trees of each description will blend together in your yard and carry on their special functions without interefering with each other.

Most varieties of shade trees can be obtained now in containers at nuseries.

AN EXCELLENT selection in a deciduous shade tree is the Chinese Pistache (Pistacia Chinensis), which grows a moderate 40 to 60 feet, round headed in a rather loose and open habit of growth.

The Pistache is well known for its fall colors—scarlet and crimson—and the female tree will bear fall fruits of scarlet turning purple.

IN THE EVERGREEN class the Camphor (Cinnamomum Camphora) is a slow-growing selection, eveutlally reaching 50 feet and spreading to some 100.

In spring its light green foliage, growing in a compact crown effect, is tinged with bronze.

This tree creates dense shade. It is strong wooded and resistant to the wind.

MANY FRUIT - BEARING trees make excellent shade trees for the yard, too—and are doubly awarding when their fruit appears.

One of the most beautiful and adaptable trees in this category is the Oriental Persimmon. It adapts to all climate areas of the state, is relatively free of pests and diseases and requires little pruning.

Plant your choices in shade trees as you would any container grown plant.

PREPARE A PLANTING hole deeper and wider than the root ball of the tree. Place the root ball on a mound of soil piled up in the bottom of the hole so that the nursery dirt-ring is slightly above ground level.

Fill in with soil and water, to get rid of air holes.

After planting, be sure to watch the leaves of the tree for signs of wilting in the first two or three weeks—it takes that long for the trees to grow out of their root balls and establish themselves in the surrounding soil.

Water as often as you would if the trees were still in their containers.

(Ann, incidentally, is off to Principia for her Frosh Yr. come Fall and College time).

Someone said that half the fun of having your own vacation retreat is the name you can give it. Anything Goes, and we've heard of everything from Mosquito Manor to Rancho Costa Plenty. . .. We're oftimes tempted to christen our Orinda abode "Great Oaks" or "Hideaway House" altho' we'd settle for "Cobweb Corners" which would seem more suitable a title at this precise moment. . . .

The strawberries smilingly winked and told us that the Miles SUTLIFFES are home from a real REST vacation at Lassen Volcanic Park where the boys enjoyed the nightly camaraderie around the Campfire. . . . The Oakland Rec. Dept.'s Family Camp at Tuolumne, where Orindans Dorothy and Mel NICKERSON are Directors, is also a favorite "relaxation" summer roost esp. for Mamas who can have the camping atmosphere without the daily chores of cooking, etc. . . .

The Jack BLOCKS just back from there where they saw many Orindan families—the Matt HAMMONDS, the Harry PARKS, the Harry MILLERS, and Charlotte MESSERSMITH w/her two girls. . . . Wm. Taylor State Park near Inverness provided the bucolic backdrop for Marion and Bob BROWN and children while the Bill THURSTONS "Tented Tonite" at Tahoe and stopped to lunch w/the Frank NEWMANS, leaving Carol there for a week's invite. . . .

Glacier-Stayers were the Charles NELSONS and their two sons who did a lot of fishing. . . . Inveterate campers, the Ted HOWES family who have set up their sleeping bags at Pinecrest and Dorothy and Doug KNIGHT took their boys to Butte Meadows to sleep under the stars and do all the things that boys like to do, fishing, hiking and hunting.

OVER THE TOMATOES, (VELVETY-RED and QUITE A BUY!) a neighbor remarked that Tahoe is still tops in popularity w/the local populace which is certainly evidenced by the Hugh RIEGERS who have bunked one batch of guests after another at their Tahoe Cabin . . . The Paul BYERLYS, Chas. SCOTTS, and Les ROWES being among the guest-towel users. . . .

Deep in the heart of Texas went the James HOLBERTS for a big family reunion, and who would dare have a small family reunion—especially in Texas? Bill Mott was one of Mr. Disney's distinguished guests at the DISNEYLAND opening at Anaheim (and can you possibly imagine now what they might have in store for Azusa and Cucamonga?).

BUYING A BOX OF TEA brought Peg KIRBY in mind—the connection being that the Mad-HATTER had nothing on her last week when her swim-pals and gals, some of which are Ann BAILEY, Elaine PARDINI, Margaret ANDERSON, Yvonne MEYER and sooomany more, presented Peggy w/an autsize Cowboy Hat simply loaded w/trinkets and humorous touches in honor of her B'day, all this being done during the Women's Class at the Park Pool. . . .

Well, Bottoms Up, Dear—for the 'Butterfly', and you can perfect even this difficult stroke by mustering at 3 PM daily for this popular swim-class with some twenty mothers and matrons already answering to rollcall. . . .

ON THE OLIVE AND CRACKERS CIRCUIT, we recalled that the Paul POLLACZEKS served cocktails on the terrace Sat. July 16, 3-5 for a score of guests who were called in to meet Ann's sister and family, the J. Raymond EIFFE'S, who stopped off here for a visit before continuing on home to Eliz, N. J. from their Honolulu summering. . . .

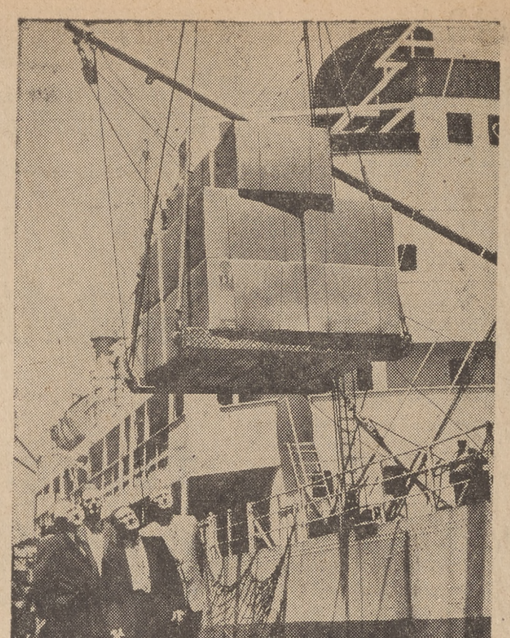
Gathered together for the late afternoon party were the Andor POLGARS, Bruce MONTGOMERYS, Joseph DIRICKX, Karl STERNES, Robert PRIDEMORES, Carl MUERCKS, Dr. and Mrs. Roger STARK, and sundry other Bayareans. . . . Another party of late date, a Farewell from fond neighbors for Elmer and Pat SITKIN who are moving to Berkeley and who will soon take a sabbatical leave to England where Mr. Sitkin will further his Eng. Lit. Studies. . . . Held at the Crow Canyon Inn, some sixteen couples from Meadow View, Glorietta area, attended this party.

PICKING OUT SOME PECTIN FOR PRESERVING, we heard news that sent us directly to the Dairy products and we herewith offer up a toast in homogenized milk to the new baby girl born to Jean and John MORTAROTTY and also to the new fourth son for Howard and Marilyn GRAVELLE. . . . The Notions Counter, w/its brass safety pins, reminded us too, that Sue and Ed Doughery named their 3rd child, second girl, Suzanne Denise, and call her "Sootoo.", , , That's Cutetoo!

Our ears were turned in on additional tidbits—like hearing that Mr. and Mrs. Jos. Knowland, Jr. of the Oak Trib. Family were in the weekend audience for both enchanted evenings offered by the Dramateurs at the Lafayette Town Hall. . . . (Get thee to THE GUARDSMEN tonight and tomorrow, if you know whatsGOOD, etc!)—like hearing that former Orindans, Charles and Claire CRAIG, are down from Portland, and saw the Conway SEARS while here . . . like those CAZ signs posted along the roads. . . . Puzzled you, too? Just necessary directions to the Joseph LONG home in Sleepy Hollow where Nancy LONG hostessed a recent Reunion of some seventy CAZADERO Camp-Goers among the younger set, who came from all over the Bay Area. . . .

Platefuls of Pizza at Gail HUTTONS and then a dayfull of PingPong, Croquet, Swimming, Records and Games at the Long's lovely home. . . . From Orinda were Caz-campers Phyllis DAIL, Kathy ROBERTS, Mike DAVIS, John BOYD, Marilyn ENGLEHARD, Pat STEVENS, Doug KROTZ, and Lucy HUPP, who fell into the pool!

If you see us muttering to ourselves in the local markets, just never you mind! It's merely our own method of mental dictation and now you know why. . . . We hope we remembered right and Thank You for showing us how to pick out a pineapple in its prime; "No squeeze, please, just sniff a whiff—and you're practically in the Islands!"



A GIFT FROM ROTARY in the form of books is loaded aboard ship for trip to the Philippine Islands. Rotary Clubs from Central Contra Costa County were heavy contributors to the drive in which Northern California clubs participated. Left to right are Rilea Doe, Mel Nielsen, E. T. School Budget Public Hearing Monday Night

A public hearing on the 1955-56 budget for Orinda Union School District will be held Monday at 8 p.m. at Orinda School.

Under public scrutiny will be a budget of $651,163 at a regular meeting of the Board of Trustees.

The total includes $432,078 for instructional purposes during the fiscal year. $50,000 is proposed for transportation of pupils.

Recently, the school board granted a request for transportation extension to Scenic Drive between Overhill Road and Estates Drive. This will require only a re-routing of the bus, with no added mileage.

The board heard a request for transportation extension from Ben Johnson of Altarinda Estates, west of Charles Hill Road. Since only one house has been completed in the area, the board deferred action, not wishing to make a definite decision as yet.

In reply to a query by The Sun, the PIE spokesman said the firm is now awaiting further developments.

Orchard Nursery Relocation Permit

Orchard Nursery's land use permit to enable the firm to relocate its store building to land just south and east of the present location was unanimously approved by the County Board of Supervisors Tuesday.

Board decision was announced at a brief session attended by interested persons, including Mrs. Albert D. Parker, who had filed an appeal against County Planning Commission approval, and Attorney Robert Eshleman of the law firm of Tinning and DeLap, representing the nursery.

The hearing on the appeal had ben held and closed on July 19.

ORCHARD NURSERY owners Jack Schneider and Stewart Wade are forced to move their store building by order of the State Division of Highways, which will use the present location as site for the Acalanes Road cloverleaf and, before that, for dirt fill from the Lafayette By-Pass.

Objections to the relocation had been made on the basis of increased traffic via an access road to be built by the state from Acalanes Road to Paulson Court, and alleged infringement on the residential area.

BEFORE THE Board of Supervisors rendered its 5-0 decision affirming the Planning Commission ruling, County Public Works Director Victor W. Sauer submitted a memorandum from his traffic engineer, Basil Andrews.

Andrews reported that the state will install 40-foot-wide surfacing from the Acalanes Road cloverleaf to the access road, and 26-foot-wide paving on the access road.

Andrews also estimated that the access road would be adequate for 3000 cars daily.

Eshleman observed yesterday that access road traffic in connection with the nursery would be "only a small fraction" of that number of cars.

Motion to affirm the Planning Commission ruling was made by Supervisor W. G. Buchanan, seconded by Supervisor Ivan T. Goyak.

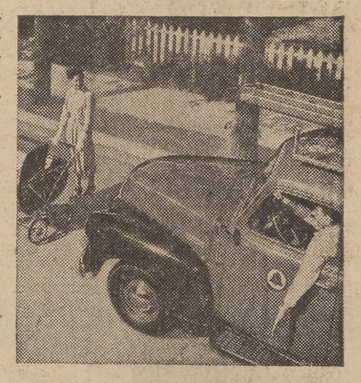
WHAT'S DOING

George A. Bauslaugh, your Telephone Manager in Orinda

How telephone drivers guard your safety



Protecting your safety and that of your family is a big part of every telephone driver's job. And to prepare our drivers for this responsibility, we give each a special course in what we call defensive driving. This teaches telephone people to drive in such a way as to prevent accidents no matter what others may do. And it really pays off. For example, telephone drivers covered more than 80 million miles last year without a single fatal accident. Naturally, careful driving like this helps make the streets safer for everyone. And by helping us keep skilled people on the job, it enables us to work faster and more efficiently . . . to bring you good telephone service. Pacific Telephone works to make your telephone a bigger value every day.

* * * * *

How to help people get in touch with you faster

If the telephone number at your house isn't now listed under your name, it easily can be. In fact, everyone in the family —Mom, the youngsters, resident "in-laws", and so on — can have a separate listing. By having your own name in the phone book, you make it easier for people to get in touch with you. It can be the difference between getting or missing important calls. And you can have your own listing at small cost. So why not call us at your telephone business office and talk it over.

Speedway Date Set for Aug. 14

Gene Marsh, Walnut Creek racing promoter, has changed the date of the Contra Costa Speedway late model stock car race from August 21 to August 14 in order to avoid a conflicting date with the Buchanan Feild sports car races.

Bill France, head of the National Association for Stock Car Auto Racing, approved Marsh's request for a date change when he learned the sports car program, sponsored by the Walnut Creek and Pleasant Hill Junior Chambers of Commerce, was a benefit for youth wor kin this area.

Letters to The Editor

Dear Editor:

Orinda's topic of conversation today is revolving around and around our zoning, and the word "progress" can be heard frequently. THAT I have accepted as my sue . . .

"Progress for whom?" I ask. Outside interests in little old Orinda are not progress, they are introgress—for Orinda. For PIE and other light industries that would follow (now being called administrative offices) it would be progress, but what of the residential field?

IS IT PROGRESS for them to rub shoulders with business? I have always felt that when the day's work is over we head toward home, and home to me means away from the business district. Is there any particular reason why they can't eb kept a little separate just for the sake of variety and reason?

Last week in an Oakland paper I read where an industrial zone was fighting to keep out a residential building. I can't imagine anyone wanting to build a home in an industrial area, but it seems someone did and industry didn't like it—said they needed all the land for industry.

I THINK ORINDA needs all its land for residents and for residents' needs, which might include, in addition to the good stores we now patronize, a music store, a shoe store, a small department store, a spacious ice cream parlor or tea room.

I don't want to stop progress in Orinda, I want to encourage—resi-denially. New homes, improved roads, lovely landscaping, the preservation of our trees and hillsides, better quarters for our Post Office, fire department, library and other commnuity services are my idea of **progress for Orinda.**

Name withheld on request.

Mrs. McFarland New Chairman of Art in Action

Among Orinda members of the College Women's Club of Berkeley, is their new chairman of the art in action section, Mrs. H. Burt McFarland of 25 El Rincon. Current affairs and international affairs form an important share of the study and lecture program of the club, a branch of the American Association of University Women.

The appointment of Mrs. Robert Humphreys as program chairman and Mrs. Victor Johnson as chairman of international relations was made by the president, Mrs. Charles Griffith and confirmed recently by the club board.

Mrs. Johnson, who has been active for several years with the World Affairs section, and whose daughter Ruth Alma, is a functionary with the United Nations at Geneva, will continue as co-chairman of the lecture section with Mrs. William Dozier, and Mrs. Edith M. K. Tibbetts.

Kings, in Upset, Beats Flying A's To Tune of 4-2

The Walnut Creek Softball League is wound up, as far as the winner is concerned, with Larry's Flying A taking the crown for the 1955 season.

Last week found no league games on tap, as State Farm dropped out of competition, due to a disputed game during tournament play.

They were scheduled to meet Larry's Flying A and Kings Food Center last week but Walnut Creek City Park was dark when the Farm nine failed to show.

LAST MONDAY night Kings and Larry's tangled in an extra-inning game with Kings upsetting the "dope bucket" to cop the win 4-2.

Kings and the Flying A were deadlocked in a scoreless tie until the top of the fifth, when Kings broke the ice.

Gene Bell got on via a single and went to second on a wild pitch. Lyle Palmer hit a long drive down the left field line which was bobbled by left fielder Dale Halbert, and Bell scampered home.

KINGS SCORED again in the top of the seventh when Earl Eigard hit a home run over the the right-fielder's head.

Eigard was leadoff man, and, while two men were on base after his blow, there was no further scoring until the Flying A's came to bat in the bottom of the seventh.

With one away, Ed Bill singled and John Witherwax hit one into the door of the recreation building to score Bill and himself, making it 2-all.

THE ISSUE WAS decided in the eighth.

Frank Freitas, led off for Kings with a bunt and when the catcher overthrew he scooted to second.

Kings' leftfielder Neil Sheridan, then "pickled" one deep to left for the night's third home run, putting Kings out in front 4-2.

Kings did no further scoring, but the Flying A nine dropped the game when they were set down in apple pie orded by Kings' hurler, Art Heasel.

HEASEL, credited with the win, struck out six, gave up nary a walk and hit one batter.

Ed Bill, for Flying A, struck out twelve, walked one and hit one.

Each chucker was even in the hit column, allowing seven apiece.

Larry's had four errors to Kings' one.

THE LEAGUE PLAY winds up next Monday, when Kings and Flying A play a return match.

Play the rest of the week will involve practice tilts, as both clubs want to keep ready for the county tournament to be held in Pittsburg starting August 8.

10 Special Deer Hunts Popular

A steady flow of applications for the 10 special deer hunts approved recently by the Fish and Game Commission is being received by the Department of Fish and Game.

In response to many inquiries received by the department, informational leaflets giving details of the hunts and how to apply for permits have been distributed to the department's license agents.

A total of 9118 permits will be issued by lottery for the 10 hunts. The Tehama County anterless hunt is allocated the largest number of permits, with 5000, and the Glenville either-sex hunt in Kern and Tulare Counties the smallest, with 180.

Applications for the Napa, San Benito and Mineral King hunts must be received at department headquarters, 926 J Street, Sacramento, by August 25. Applications for the remainder of the hunts must be in by October 3.

Application forms are attached to the 1955 deer tags, and no other forms will be available.

Willhite to Race Again Tonight

After taking 11th against a field of 17 veteran drivers, Bob Willhite, rookie Walnut Creek hard top driver, will have to prove tonight that last week's performance was not just a "flash in the pan," Gene Marsh, local promoter, commented after Willhite's first race.

Marsh regards Willhite as a candidate for rookie of the year honors. Marsh pointed out that Willhite made the main event field for his first race last week.

Jack London, BCRA business manager, agreed with Marsh that the new Walnut Creek pilot must finish strong tonight to show the grandstand that he has "won his spurs."

Willhite is the first driver this year to make his debut in a main event, London remarked.

Women Help In Polio Work

Mrs. Edna Selley, representing the Contra Costa County Chapter, National Foundation for Infantile Paralysis, attended a recent conference held in San Francisco for Women's Activities Committee Chairmen from Northern California to point up that committee's role in chapter organization.

Miss Elaine Whitelaw, National Director of Women's Activities presided at the meeting making suggestions to further the work of these committees.

Contra Costa County Chapter's committee under the leadership of Mrs. Selley, has been organized for about one year and has done an outstanding job in many fields. All volunteers for the Polio Vaccine program were recruited from and by Mrs. Selley's committee. They also brought cheer and happiness to the polio wards during the holiday season as well as rendering invaluable service to the March of Dimes.

Central Contra Costa Now In United Bay Area Crusade

When the United Crusade conducts its annual fund drive this fall, the campaign for the first time will be a really unified one by the five Bay Area counties, including Contra Costa.

That is apparent from the recent announcement by the United Bay Area Crusade of its $10,691,640 goal.

Establishment of the United Bay Area Crusade — embracing Contra Costa, Alameda, San Francisco, Marin and San Mateo Counties — should serve as the long-awaited answer to the need for just such an arrangement.

On the basis of information from the United Bay Area Crusade's board of governors, it seems obvious that, at long last, there will be no discrepancy between giving at home and giving at work.

In other words, a Central Contra Costa County resident who works in San Francisco, Oakland, Berkeley, Emeryville or anywhere else in the five-county area can contribute to the campaign at his job and thus be sure he or his family will not be expected to give again at home.

Of course, it should be clearly realized that in this area there still are some agencies which are not part of the United Crusade. The Mt. Diablo Chapter of the American Red Cross and the Mt. Diablo Therapy Center are among these.

In such instances, the agency will, as usual, conduct its own individual fund drive in this area — and should receive merited support.

It is up to each family to decide how much to contribute to the United Bay Area Crusade and how much to give to independent local campaigns, such as those of the Red Cross chapter and the Therapy Center.

Certainly, there is no doubt as to the worthwhileness of all drives by bona-fide welfare organizations.

That the United Crusade campaign in Central Contra Costa County will now be part and parcel of an integrated five-county Bay Area drive is good news for all concerned — the residents of Central Contra Costa County and the agencies which depend on them and on the people in the rest of the five-county area.

There will be many more announcements and news items about the United Bay Area Crusade before the campaign actually opens in the fall.

We should read these announcements carefully, so as to understand the importance of the United Bay Area Crusade and of our support.

Sportsmen Asked To Prevent Fires

With the opening of deer season next month, mountains and woodland areas of the state will be visited by thousands of hunters and fishermen, necessitating extra vigilance in preventing fires and keeping public areas clean, the Department of Fish and Game stresses.

"Persons hunting on both public and private land have a real responsibility not only in preventing fires, but in keeping the camp sites in clean condition," the department points out.

What They Say

Orang-utans Not Very Good Pets

Not everyone has a pet that could, with one sweep of its muscular arms, jam a body out of sight up a fireplace chimney.

A French sailor had one like that in Poe's "The Murders in the Rue Morgue." It happened to be a tempered Orang-utan he had captured in Borneo.

Our researchers began wondering just what kinds of pets are adaptable to this area.

HERE IS A question they asked of a group of people: "Do you find this a good area for the care and raising of pets, and what are some examples?"

No Orang-utans were reported.

Bob Stille, 14, of 1199 Monticello Road, Lafayette, said "country living" was ideal for his collection of snakes. One of them, a gopher snake, was threshing about his neck as he spoke to our researcher.

He aso has two garter snakes from Montana and a rubber boa from Canada, although this snake is also a California native, he explained.

BOB HAD three king snakes who escaped while he was away on vacation. He plans on adding to his collection, which he houses in two terrariums and an old screened-in drawer set .

"I don't even want to talk about them," said his mother, Mrs. R. B. Stille.

Mrs. A. C. Flenner, 52 Acacia Drive, Orinda, said she thought the area was just right with lots of space for pets.

The Fleners have an Irish Setter named "Sheppy," and a black cat, variously referred to as "Boots," or "Midnight."

"We were pleased with the surroundings for our Irish Setter when we brought her out here from the East," said William B. McGorum, 412 Moraga Highway, Orinda. The dog has since died.

Jerry Rocha, 1133 Garden Lane, Lafayette, thought conditions were ideal for his three-year-old pointer, "plenty of room," being one of the area's chief attributes.

MR. AND MRS. Thomas Jacobs of 58 Palana Court, Walnut Creek have two black cockers. "In that we rent, we do run into difficulties with the dogs, but there's no question about it, the weather and wide open spaces are wonderful for the animals," said Mrs. Jacobs.

"We keep a dog and a parakeet," said Robert Scopin of 814 Rosewood Court, Walnut Creek. "Oh, I think that the climatic conditions are excellent here for keeping pets," he added.

ALSO MENTIONING the climate here as favorable was Edward Ernst of 1119 Santa Lucia Drive, Pleasant Hill, who is the proud owner of "—a Siamese cat who just had four kittens."

"I do definitely!" was the emphatic reply of Mrs. Richard Pena of 866 Wedgewood Court, Pleasant Hill, who keeps a cocker and a shepherd. She explained, "There's so much room to run around and the climate is cleaner for them here than in the city."

Letters to The Editor

Dear Editor:

Just have to send a few lines to compliment Nan Wallace on her excellent article on "Civil Defense from a Family Viewpoint."

The views expressed have been discussed by our family and we feel we are better informed because of it.

Let us have more of this type of writing to stir us all to action.

Mrs. John LaValle
1062 Orchard Road
Lafayette

Dear Editor:

I would like to ask through your paper if the residential property owners of Orinda realize what will happen to their beautiful homes if Dr. Thomas is granted a land use permit for a business building on his lot, number 42 in the Moraga Estates tract.

If the Planning Commission grants this request how can they turn down the requests of others who will apply for rezoning and the lifting of deed restrictions?

After that it will not be long before business will creep in here and there and we will be confronted with a store or other business structure next to our homes.

Is this what Orindans want?

We still have business property that has not been improved. Why is it necessary for business to go into residential property and jeopardize the values of our homes?

I sincerely hope that the Planning Commission will give thorough consideration to this case before allowing Orinda residential property owners to be faced with the same problems that face our surrounding communities and East Bay cities.

Mrs. John J. Blaney,
7 Overhill Road,
Orinda.

Letters to The Editor

Dear Editor:

Your July 15, 1955, issue carried a story pertaining to the City of Menlo Park and its professional-administrative zone. In fairness to Menlo Park and our professional zoning, may I correct a few impressions created by the article and possibly the Women's Planning Council report?

First, Menlo Park has been helped appreciably by the professional-administrative zone. The assessed valuation of this area approximates that of the downtown central business district. And the cost of municipal services to the adminstrative zone is far less.

SECONDLY, MENLO Park's change from "a quiet residential community to a city bustling with mercantile activity" is in large part due to the tremendous growth of the whole peninsula and NOT from "more than a thousand office workers converging on the professional-administrative area."

Multiple dwelling construction in Menlo Park has been heavy and is continuing, but we have no proof that the office workers constitute any large part in the demand. Realtors and developers just as often attribute the apartment demand to city dwellers moving down the peninsula and older couples shedding the expense and responsibility of a larger home. Before we would make the statement that the professional zone caused apartment house construction, we would survey the companies in question.

Menlo Park looks to the professional-administrative zone as its best means of broadening the tax base without expanding municipal service costs, including school costs. We have no doubt that our entire professional - administrative zone could have been totally developed in single family homes on quarter-acre lots. The continuing post-war growth on the peninsula shows that.

THUS, THIS ZONE has greatly aided us in holding the line in our municipal tax rate. At no time were great tax reductions envisioned because of the limited area that was zoned for professional-administrative development.

During the current struggle in your area over the proposed zoning of certain areas for professional, administrative and executive uses, we have been contacted by both sides of the controversy. We regret that our "apples" have been compared with your "oranges."

At no time has it been the intent of any city official to give aid or comfort to either side. We have felt that the "aid" or "comfort" lay within the mind of the interested party who might have visited Menlo Park and gleaned the points of argument as he or she desired.

If you would care to come and visit Menlo Park's professional-administrative zone, we would be most pleased to arrange a tour for you. We are very proud of this development and the way in which it has blended into our community.

JOHN R. JOHNSON,
Secretary, Menlo Park
Planning Commission.

Under The Sun

By Herman Silverman

Have fun this weekend!

Come in from the garden and forget those weeds for a minute, dear reader, and let's chat.

Do you realize that our wonderful Diablo Valley is a center of the arts? Our suburbia is perhaps challenging the Peninsula and Marin for cultural and artistic leadership. If enthusiasm and hard work are the criteria, we probably are No. 1 right now.

Take this weekend, for example.

An excellent "All-Local Outdoor Art Show" continues through Sunday at the Valley Art Center on Mt. Diablo Boulevard just east of central Lafayette from 11 a.m. to 3 p.m. today and from 11 a.m. to 8 p.m. tomorrow and Sunday. Professional artists and Sunday painters are exhibiting at the show, sponsored by the capable and energetic members of the Valley Art Center. In addition, Japanese water colors on silk and hanging scrolls by Chiura Obata are an exhibit and will continue through August 10. There is an exhibit at this Center much of the time.

Curtain going up!

Or would you like to see a play? Or two plays?

Tonight and tomorrow night the Lafayette Playshop presents "Rebecca" at Acalanes High School. The Playshop has staged many outstanding productions through the years and has earned a splendid reputation as a little theater.

And/or tonight and tomorrow night drop in at Lafayette Town Hall for the Dramateurs' presentation of "The Guardsmen." During July the Dramateurs have instituted a most ambitious program—presenting three plays on three successive weekends in the form of a theater-in-the-round. The experiment has been most successful and worthwhile.

Tickets for the plays are available at the box offices or from members of the groups. Incidentally, the casts are composed of residents throughout Central Contra Costa County and new talent is always welcome. Another talented dramatic group is the Intimate Theater, which is now rehearsing "Picnic."

All right—what do you thing? How about going tonight or tomorrow? And why not make it a family affair? Have Johnny and Mary ever seen an art exhibit or a play? Take them along.

And many others, too

I've only named four groups which are doing outstanding work in the arts. Sometime we can talk about the many others which help to make life more interesting and fun.

There are choral, symphonic and other music groups; various dance groups; other art and craft groups; literary and writing groups; and on and on. If you are interested in participating actively or as a spectator, check The Sun weekly. Or if you have a special interest and are unable to learn if a group is organized, write us a note and we'll find out.

Okay, friend gardener, we've had our cultural lecture for the day. Back to those weeds!
